

B07001

GEOGRAPHICAL MOBILITY IN THE PAST YEAR BY AGE FOR CURRENT RESIDENCE IN THE UNITED STATES

Universe: Population 1 year and over in the United States
2006-2010 American Community Survey 5-Year Estimates

This table provides geographical mobility for persons relative to their residence at the time they were surveyed. The characteristics crossed by geographical mobility reflect the current survey year.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns. For 2006 to 2009, the Population Estimates Program provides intercensal estimates of the population for the nation, states, and counties.

	Cape May County, New Jersey	
	Estimate	Margin of Error
Total:	96,795	+/-185
1 to 4 years	3,700	+/-211
5 to 17 years	14,407	+/-117
18 and 19 years	2,303	+/-169
20 to 24 years	5,180	+/-213
25 to 29 years	4,776	+/-154
30 to 34 years	4,064	+/-151
35 to 39 years	5,237	+/-366
40 to 44 years	6,296	+/-371
45 to 49 years	7,586	+/-197
50 to 54 years	7,881	+/-158
55 to 59 years	7,290	+/-373
60 to 64 years	7,532	+/-376
65 to 69 years	5,935	+/-340
70 to 74 years	4,706	+/-320
75 years and over	9,902	+/-94
Same house 1 year ago:	85,154	+/-1,085
1 to 4 years	3,022	+/-287
5 to 17 years	12,865	+/-340
18 and 19 years	1,790	+/-223
20 to 24 years	2,926	+/-521
25 to 29 years	2,940	+/-361
30 to 34 years	3,550	+/-188
35 to 39 years	4,542	+/-334
40 to 44 years	5,750	+/-380
45 to 49 years	6,895	+/-319
50 to 54 years	7,255	+/-212
55 to 59 years	6,863	+/-368
60 to 64 years	7,060	+/-375
65 to 69 years	5,714	+/-326
70 to 74 years	4,488	+/-325

	Cape May County, New Jersey	
	Estimate	Margin of Error
75 years and over	9,494	+/-145
Moved within same county:	5,433	+/-756
1 to 4 years	328	+/-157
5 to 17 years	781	+/-244
18 and 19 years	75	+/-74
20 to 24 years	809	+/-327
25 to 29 years	1,068	+/-258
30 to 34 years	239	+/-114
35 to 39 years	350	+/-155
40 to 44 years	333	+/-157
45 to 49 years	480	+/-222
50 to 54 years	229	+/-111
55 to 59 years	128	+/-68
60 to 64 years	192	+/-93
65 to 69 years	69	+/-61
70 to 74 years	118	+/-66
75 years and over	234	+/-89
Moved from different county within same state:	2,164	+/-615
1 to 4 years	100	+/-57
5 to 17 years	368	+/-240
18 and 19 years	175	+/-93
20 to 24 years	329	+/-180
25 to 29 years	245	+/-168
30 to 34 years	201	+/-138
35 to 39 years	134	+/-82
40 to 44 years	86	+/-66
45 to 49 years	33	+/-30
50 to 54 years	106	+/-70
55 to 59 years	115	+/-64
60 to 64 years	123	+/-90
65 to 69 years	56	+/-40
70 to 74 years	60	+/-33
75 years and over	33	+/-25
Moved from different state:	3,551	+/-685
1 to 4 years	250	+/-140
5 to 17 years	384	+/-171
18 and 19 years	187	+/-99
20 to 24 years	918	+/-344
25 to 29 years	342	+/-140
30 to 34 years	74	+/-66
35 to 39 years	211	+/-114
40 to 44 years	127	+/-79
45 to 49 years	175	+/-81
50 to 54 years	291	+/-119
55 to 59 years	184	+/-99
60 to 64 years	157	+/-69
65 to 69 years	87	+/-58
70 to 74 years	40	+/-32
75 years and over	124	+/-64
Moved from abroad:	493	+/-231
1 to 4 years	0	+/-123
5 to 17 years	9	+/-14
18 and 19 years	76	+/-96
20 to 24 years	198	+/-133
25 to 29 years	181	+/-144
30 to 34 years	0	+/-123
35 to 39 years	0	+/-123
40 to 44 years	0	+/-123

	Cape May County, New Jersey	
	Estimate	Margin of Error
45 to 49 years	3	+/-4
50 to 54 years	0	+/-123
55 to 59 years	0	+/-123
60 to 64 years	0	+/-123
65 to 69 years	9	+/-14
70 to 74 years	0	+/-123
75 years and over	17	+/-21

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2006-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
